

TheGenealogist

[TheGenealogist](#) announces the release of Islington Lloyd George Domesday Survey records. These cover land owners and occupiers in 1910-1915 with over 70,000 individuals recorded, joining the previously released data books and their associated maps for other parts of London.

This new release is the latest stage of TheGenealogist's vast ongoing project to digitise over 94,500 Field Books, each having hundreds of pages, and linking them to large scale IR121 annotated OS maps which are now viewable in TheGenealogist's powerful Map Explorer tool.

The records have been sourced from The National Archives and were compiled by the Valuation Office in a period that stretched from 1910-1915 in response to the Lloyd George government passing the People's Budget 1909/1910.

This new release covers records made of property ownership and occupation in Barnsbury, Canonbury, Charterhouse, Clerkenwell, Finsbury, Glasshouse Yard, Highbury East, Highbury West, Lower Holloway, Myddelton, Old Street, Pentonville, Saint Mary, Saint Peter, Saint Sepulchre, Thornhill, Upper Holloway, Upper Holloway East and Upper Holloway West.

Family historians can use these records to:

- Find ancestors who owned or occupied property in the Islington area of London
- See the outlines of their houses on large scale maps from the time
- Fade between historic and modern maps to see how the environment has changed
- Check details of properties in the neighbourhood, by clicking the red pins
- Locate an address from your research down to a specific house on the map
- Search by name, parish and street to uncover ancestors' property in 1910-1915

Complementing the maps on TheGenealogist's Map Explorer are the accompanying Field Books which provide detailed information relative to the valuation of each property, including the valuation assessment number, map reference, owner, occupier, situation, description and extent.

For family historians looking for ancestors' homes just before the First World War in the Islington area of London this record set is invaluable.

About The National Archives

[The National Archives](#) is one of the world's most valuable resources for research and an independent research organisation in its own right. As the official archive and publisher for the UK government, and England and Wales they are the guardians of some of the UK's most iconic national documents, dating back over 1,000 years. Their role is to collect and secure the future of the government record, both digital and physical, to preserve it for generations to come, and to make it as accessible and available as possible. [The National Archives](#) brings together the skills and specialisms needed to conserve some of the oldest historic documents as well as leading digital archive practices to manage and preserve government information past, present and future.
